Dear Sir:

This communication is in response to the Office Action mailed February 13, 2003 (Paper No.13).

In the Specification

At Page 6, line 21 to page 7 line 8, the paragraph has been amended to read:

CI  
The solvent-soluble poly(urethane/urea) resin of the present invention is derived from a condensation of poly(urethane) prepolymer containing 1.3 to 6.0 wt % of unreacted isocyanate (i.e., -NCO) groups and 80% to 120% of a diamine based on the equivalents of the unreacted -NCO groups. The resulting poly(urethane/urea) resin has the structure:
